

Puppy Wellness Plan

Congratulations on the new addition to your family! We at the Animal Hospital of Lynnfield feel privileged to be able to provide you with the best medical care for your new puppy to ensure it a long, healthy and happy life. Here is our general idea of a preventative healthcare plan for your puppy. Each puppy is different and has different risks of exposure to contagious diseases, so our plan may vary for your puppy. Your veterinarian will make any specific recommendations needed to provide the best healthcare for your new puppy.

Up to 8 Weeks of Age

- Comprehensive Physical Exam
- Distemper, Adenovirus, Coronavirus, Parainfluenza and Parvovirus (DHCPP) vaccine
- Fecal test for intestinal parasites
- Strategic Deworming
